CARNEGIE'S MEN AT WORK.

A Compromise Adopted Settling Matters for Three Years.

Pittsburgh (Pa.) dispatch: The strike at the Homestead steel plant of Carnegie, Phillips, & Co., has been definitely settled. The terms of the settlement are not publicly known, but it is understood that concessions were made on both sides. The workmen, it is said, have agreed to accept 20 per cent. reduction instead of 30 per cent., as proposed by the firm. The scale will remain in force for three years, ending in 1892, and instead of the scale year beginning with January, as proposed by Carnegie, will commence July 1, the same as the Amalgamated iron scale. Three thousand men are again working with steady employment promised for three years.

KILLED THE ENCAMPMENT.

The G. A. B. W. Not Go to Milwaukee in

the Body.

The National Encampment of the Grand Army of the Republic at Milwaukee in August will be simply a business meeting, with no parade or display and a very limited attendance. The department commanders had asked the railroad companies for a rate of one cent a mile for the comrades, and gave the parades until the 10th to accede to these terms. The meeting was held, which was attended by the Commanders of Illinois, Wisconsin, Iowa, Minnesota, and Davis of Nebraska, when it was determined to adhere to previous action, to advise the old soldiers not to attend the encampment, as the railroad companies declined to make the stipulated rate. Letters were received from Commanders Brown of Michigan, Travis of Indiana, Menton of Kentucky, and Smith of Iowa, and from the Department Commanders of Missouri and Kansas, indorsing and advising the action which was taken. All the Department Commanders stood firmly by the proposition to the effect that the rates should be 1 cent a mile or they would issue orders to have only delegates go to the convention and disaccuse the attendance of all others. State Commanders will issue orders to this effect in their respective departments. Some railroad companies have sent correspondence indicating an inclination to recede from their position. If communications are addressed to them separately and not to the Traffic Association, but the publication of the orders of department commanders will practically kill the encampment.
